EXTERIOR SCREWS

Structural Screws, Primeguard MAX® Stainless and Trim Head

Offering reliable solutions for decks, fences, pergolas and other exterior projects, Grip-Rite exterior screws deliver both the quality and value contractors expect. With a range of coatings and warranties lasting from 10 years to the life of the project, Grip-Rite exterior screws are available in multiple colors and package sizes to accommodate projects large and small. **Get the job done right with Grip-Rite!**

Structural Screws

The newest fastener launch from the brand you know and trust, Grip-Rite Structural Screws offer versatility, speed and longevity in load-bearing exterior wood construction projects. Both styles include an ID code stamped right into the head for easy spec reference and a load value chart conveniently located on every package. As a replacement for lag screws, Grip-Rite Structural Screws feature a type 17 point that translates to both efficiency and time savings by eliminating the need to pre-drill pilot holes. Our premium PrimeGuard Plus coating assures Grip-Rite Structural Screws will last throughout a project's lifetime. Easily identifiable, cobalt blue packaging features easy to read iconography, lateral load value references and a scannable QR code that links directly to the ICC report for technical specifications.

NEW — Grip-Rite Structural Screws
Peg hooked clamshells, 50 pc. boxes, 150-200 pc. boxes, and bulk packaging.
Actual quantities may vary based off screw size

PrimeGuard MAX® Stainless Exterior Screws

When nothing but the best will do, Grip-Rite MAX Stainless screws are the preferred premium exterior construction fastener on jobsites – especially those located in areas with high humidity, around pool areas or near the coasts. Grip-Rite 305 and 316 grade stainless steel screws are ideal for fastening decking, siding, roofing, finish and trim and are the best choice for use in cedar and redwood construction. Deep cut threads and star drive heads are standard on all Grip-Rite MAX Stainless Exterior Screws, increasing holding power and quick engagement for a solid connection.

NEW — Grip-Rite PrimeGuard MAX® STAINLESS
Available in clamshells, jars, 1lb., 5lb., 25lb. and bulk packages

PrimeGuard Plus® Exterior Coated Screws And Trim Head Screws

Grip-Rite Exterior Coated Star Drive and Trim Head screws are engineered with our exclusive PrimeGuard Plus premium coating – guaranteed against rust and corrosion to prolong the beauty and durability of decks, siding, fencing, railing, and other outdoor projects. Grip-Rite Exterior Screws feature star drive heads to reduce cam outs when driving into your outdoor project. Our star drive Exterior Trim Head Screws are the perfect solution for railing, siding, or anywhere a thinner shank and smaller head are desired. Type 17 point tips on both screws reduce the need to pre-drill and help to keep the material from splitting. Coarse threading pulls the substrates together for a solid, tight connection.

Grip-Rite Exterior Trim Head screws feature a T20 star drive trim head suited to materials used in exterior finish work.

Grip-Rite PrimeGuard Plus® Exterior Coated & Trim Head Screws Available in clamshells, 1lb., 5lb., 10lb., 25lb., and bulk packaging

PrimeGuard Exterior Coated Screws

Grip-Rite exterior screws with PrimeGuard coating are a reliable choice for contractors and DIYers who want quality and value from a brand they know and trust. With a Phillip's head, coarse thread and a sharp point, all wrapped in a 10-year coating warranty, this fastener is ideal for use in treated lumber projects.

Grip-Rite Exterior Screws with PrimeGuard® 10 coating Available in 1lb., 5lb., 10lb., 25lb. and bulk packages
