# COLLATED FASTENERS

*Grip-Rite collated fasteners are THE choice for value-conscious contractors who want professional results from a brand they know and trust. Grip-Rite collated nails are built for performance and are available in multiple sizes and coatings for almost every fastening job from framing, siding and roofing to fences, finish and trim work.*

*Grip-Rite packaging has been meticulously designed to make the selection process easier for those either stocking or shopping the shelves. New carton artwork features the legendary Grip-Rite Jam-Free Guarantee and focuses on the entire RED System... comprised of tools, fasteners, accessories, and of course, collated fasteners. The point-of-sale label has been enhanced in multiple ways, so contractors (or associates) can quickly and easily find the specific product they need so they can get back to work.*

## A New Look for Grip-Rite Collated Packaging

New label and carton designs simplify the selection process for an easier consumer shopping experience.

**A larger collated icon color block for tool matchups**

**Increased text size to more easily recognize product description, degree, size, coating, etc.**

**Enlarged product image on the front of the package**
